CONFERENCE 2024

Sustainability Workshop

Marcel Hilgers, Dr. Mladen Banovic

11 June 2024

How do we make sustainability for electricity grid equipment a business case?

- What matters most for me in this context?
- Groupwork:
 1. What would a perfect situation look like?
 2. What are obstacles to get to this perfect situation?
 3. What are my suggested solutions to overcome the obstacles?

Guidelines for the workshop

- Reflect individually on the leading question – **How do we make sustainability for electricity grid equipment a business case?**
- Groups of 5 (group members should be from different companies)
- Group work – suggested time: 30 minutes
 - “walk and talk setting” – share your thoughts and discuss the topic with the members of your group (20 minutes)
 - Short debriefing in your group, one member summarizes thoughts (5 minutes)
- Gathering in the conference room (14:40 for the quiz)
- At the entrance of the conference room, meet the Transformers Magazine team who will collect your papers
- The conclusion will be shared tomorrow, and the best work will be awarded
